August 2020

Dear Passport Customer,

We are really excited about these NEW benefits for our PUP current customers:

PDF Forms Designer -You will love the new functionality of the PDF Forms Designer as it streamlines and simplifies custom forms printing, and it's **included** as part of PUP! See the many advantages over the older printing methodology - The New PBS PDF Forms Designer

New PBS v 12.07 coming soon!! Expansion of data fields such as customer and ship-to name and address fields to accommodate longer entries, improved formatting and we've addressed an increasing need for international addresses. We have also added longer email addresses, website link fields and improved overall contact data management.

Also included is immediate e-mailing of: check pay advices and ACH direct deposit remittance/pay advices in AP; PDF's at the end of the invoice statement printing in AR; PDF invoices at the end of invoice printing in OE and POS. These enhancements and many, many more are automatically included when you renew your Passport Update Program (PUP)!

Benefits of staying current:

- Enjoy the many feature and function enhancements to help you run your business better and stay competitive.
- Maintain compatibility with system-level software like Windows 10, Microsoft Server 2019, SQL, and ODBC.
- Stay current on regulatory changes to Payroll and Accounts Payable.

Maintaining your yearly support of Passport software protects the very valuable investment in the systems and data that you have developed over the last 10, 20, 30 or more years. Paying for Passport maintenance, and applying updates, is affordable insurance to be certain that your systems keep running accurately and reliably, every day, and into the future.

We invite you to talk to your Partner and encourage you to renew your Passport Update Program today. Please visit Passport's website for more information about Passport's growing family of products and services.

Sincerely,
The Passport Team

Passport's mission: Assist small to mid-sized companies by providing innovative software that helps them work more efficiently and profitably.
